ASIA PACIFIC OFFICES WITH A 24/7 GLOBAL RESPONSE

Our offices in Australia and Indonesia provides us with an Asia Pacific platform to launch our operations throughout the region and manage our global strategic partnerships. We have the capability to develop and manage new local networks as needed by our valued clients.

WHO WE ARE

Panoptic Solutions is an Asia-Pacific focused risk management company with offices in Australia and Indonesia. We are trusted by some of the world's most influential people and their families, company executives and VIPs to provide safety and security solutions, and peace of mind.

Integrity, trust and discretion are our core values.

As U.S. Secret Service agent, I worked with numerous security teams from within government organisations and the private sector. Panoptic Solutions is by far one of the most professional teams I have ever worked with during my professional career. Their team's attention to detail, "can do" attitude, and extensive operational experience contributed greatly to a safe and successful tour. The Panoptic team seamlessly integrated with our team and met every challenge presented. Of particular significance, was the 24 hour a day medical care package they provided to our team and tour staff through their Security Paramedic and Medical Director, both of whom provided aid and treatment to team members during the tour

Richard C - Deputy Assistant Director (ret.)
United States Secret Service

Core Leadership

Troy Claydon
Managing Director

Troy is the founder and CEO of Panoptic Solutions. Over the past nineteen years, he has planned and managed a full range of security operations including complex Executive Protection tasks, installation security, asset security and risk management within challenging and hostile environments.

Troy has a service history of over fourteen years during which time he completed and instructed personnel on the Australian Army's rigorous Close Personal Protection Operative Course. He is qualified and registered Frontline Paramedic who continues to work on-road to maintain his clinical skills. He holds a bachelor's degree in Health Science as well as several tertiary qualifications in security & risk management and business.

With experience providing services across Australia and all throughout Asia Pacific Troy is well placed to advise on regional security matters.

Core Leadership

Dr. Kieran McCarthy
Medical Director

As an Australian military trained doctor, Kieran provides oversight and compliance of all our medical operations and clinical governance. Kieran has a distinguished service history of over 12 years with Australian Army including three years providing the full spectrum of direct action support as a doctor within Special Operations Command.

Kieran has deployed and operated within high risk austere environments including six deployments to East Timor, Afghanistan and the Philippines; as well as domestically in many challenging environments.

With a special interest in adventure, wilderness and austere medicine, Kieran is well suited to providing high-level advice and guidance to our medical staff. Kieran holds a Fellowship of the Royal Australian College of General Practitioners, a Masters of Public Health (Disaster & Emergency Management), and is also qualified in aviation and diving medicine.

Core Leadership

Fallon Claydon
Legal and Compliance Manager

With over nine years' experience in commercial law, Fallon provides expert legal advice and monitors the compliance and regulatory requirements for Panoptic Solutions. Fallon has completed Bachelor's Law and Bachelor's of Arts degree at the University of NSW, and is admitted to the roll of the QLD Supreme Court and the High Court of Australia.

Fallon value adds to Panoptic Solutions and its clients by providing sound and valuable legal advice regarding intricate security issues as well as liaising with various law enforcement agencies.

Fallon manages every legal matter and ensures Panoptic maintains appropriate policies and procedures, as well as auditing requirements with personal attention and diligence.
